Bosch 24" Kitchen Suite...

Whether it's city dwellers living in an urban condo or loft, empty nesters or retirees desiring to downsize, or vacationers enjoying time in a compact residence club, Bosch brings a premium experience to any kitchen. No matter the size.

24" Cooktops

SPX68U55UC (16903) SS
SPV68U53UC (16796) Custom

24" Cooktops

Available in gas or electric, Bosch 24" Cooktops are ideal for any small space kitchen. The Gas Cooktop includes an 11,500 BTU burner, two simmer burners and one medium burner, and stainless steel knobs for a premium look and touch. The Electric Cooktop offers the flexibility of four burners of varying size and power, all with a sleek, frameless design.

24" Wall Oven

Offering Genuine European Convection for even baking, the Bosch 24" Wall Oven features 10 cooking modes and two levels of broiling to accommodate standard and large meat sizes. And the eco-friendly DualClean™ system uses a catalytic coating and heat to clean the oven during the cooking process.

18" Dishwashers

Bosch 18" Dishwashers feature key innovations such as a 3rd rack, a RackMatic® height adjustment system and a built-in water softener. 18" Dishwashers are available in a variety handle options such as bar, recessed and custom panel ready options. ADA compliant 18" Dishwashers are also available.

24" Pull-Out Visor Hood

Sleek in design, the Pull-Out Visor Hood uses a powerful 400 CFM blower to quickly freshen the air in the kitchen. And since compact kitchens aren't conducive to appliances that protrude into open space, the hood stores neatly inside the unit when the ventilation is not in use.

24" Refrigerators

Two options are available, and both fit small spaces with cool sophistication. The Stainless Steel Refrigerator and Glass Door Refrigerators have been named ENERGY STAR's Most Efficient for 2015, offering greater efficiency with features such as beautiful LED lighting. Showcasing a luxury look, the exclusive 24" Glass Door Refrigerator is available in black, white or glass-on-stainless steel.
